DEPARTMENT EXPECTATIONS

# DevSecOps

Led by **Sushobhit**

Understand what keeps software running, connected, and secure.

## Linux

- Commands, the filesystem, permissions, and package management
- Shell scripting, process management, environment variables, and system logs

## Networking

- OSI and TCP/IP models, IP addressing, DNS, and DHCP
- HTTP, ports, protocols, firewalls, and NAT
- Network tools, VPNs, and proxies

## Collaboration

- Version control basics and Git setup
- Branching, merging, merge conflicts, and .gitignore
- GitHub/GitLab collaboration, pull requests, and code reviews

Submitting an application does not confirm selection. Shortlisting and an offline round follow, and their date, time, and venue will be announced.
