DEPARTMENT EXPECTATIONS

Web Development

Led by **Anup**

From the browser to the backend. Build things people can use.

Web fundamentals

- Full-stack, frontend, and backend fundamentals
- REST APIs, HTTP methods and status codes
- Routing and middleware

Building applications

- Database integration and CRUD operations
- Authentication and authorization
- WebSockets and real-time communication
- API testing

Shipping together

- Deployment basics, environment variables, error handling, and debugging
- Git and GitHub, version control, branching and merging
- Pull requests and resolving conflicts

Submitting an application does not confirm selection. Shortlisting and an offline round follow, and their date, time, and venue will be announced.
