DOMAIN EXPECTATIONS

Creatives

Led by **Vanshish**

Tell the chapter's stories through design, words, and visual content.

You do not need to be a tech expert to join the Creatives team. We are looking for people who get things done and help run our events smoothly. You also do not have to know everything: we do not expect you to handle posters, video editing, and management all at once. Being good at just one of these areas is more than enough.

What we look for

- Event management and coordination: people who can talk to people, handle logistics, and manage things on the ground while an event is happening
- Video editing: no professional software or flashy transitions needed. If you can use a basic app like CapCut to put together a clean, well-edited reel for our socials, you are good to go
- Poster designing: we want our posters to look sharp and catchy. An eye for layouts, colours, and decent design sense fits right in
- Acting and directing: ideas for reels or short videos, the ability to execute them, or being comfortable in front of the camera

We will not judge you on perfection. If you have taken even one step into any of these areas, we will help you explore the rest while you grow with us.

Submitting an application does not confirm selection. Shortlisting and an offline round follow, and their date, time, and venue will be announced.
